Office Action Summary

DETAILED ACTION

Response to Amendment

1. In view of the amendments to the claims are the patentability arguments surrounding the method limitations, a restriction between the product and method claims is now required.

Election/Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 13-15, 17-23 and 29-30 drawn to a product, classified in class 174, subclass 250.
 - II. Claims 24-31, and 32-33 drawn to a method, classified in class 29, subclass 825.
3. The inventions are distinct, each from the other because of the following reasons: Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product can be made without heating and melting the masses of solder paste and flattening the tops: the bumps can be deposited through a mask or form so the tops are formed level upon deposition.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper. Because these inventions are distinct for the reasons given above and the search

required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

5. Considering the prosecution history of this application, a telephone call was not made to applicant to request an oral election. The requirement is communicated in writing so examiner can consider applicant's arguments should applicant traverse the requirement.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Any inquiries related to the examination of this application should be directed to Ex. K. Cuneo at (703) 308-1233 or her supervisor SPE David L. Talbott at (703) 305-9883. Inquiries of a general nature should be directed to the receptionist of Group 2800 at (703) 308-0956. The fax numbers for Group
